**Motion of TransCore Corporation for Leave to
Submit Late Comments**

Pursuant to Section 1.45 of the Commission's Rules, 47 C.F.R. § 1.45, TransCore Corporation ("TransCore") respectfully submits this Motion for Leave to Submit Late Comments in the above-referenced proceeding. The Commission's Public Notices (DA 01-686 and DA 01-932) established May 16, 2001 as the extended deadline for filing comments. TransCore attempted to file its accompanying comments in compliance with this deadline through the Commission's Electronic Comment Filing System, but was unsuccessful. Upon further review, it was learned that the Commission could not accept the comments because the DA number for the initial Public Notice (DA 01-686) had been utilized rather than the assigned Docket number (WT Docket No. 01-90).

Given that TransCore has been an active participant in all aspects of the DSRC allocation at 5.9 GHz and in the current development of a national DSRC standard for interoperability, the public interest would be served by consideration of TransCore's comments in this proceeding.

Accordingly, TransCore respectfully requests that the Commission grant leave to submit late comments.

Respectfully submitted,

TransCore
